Film Presentation: "Abrazos"

MRHS and the *MG Multimedia Workshop* present Building IV resident **Luis Argueta**, who will screen his film, *Abrazos*. The film tells the transformational journey of a group of US citizen children who travel from Minnesota to Guatemala to meet their grandparents — and in some cases their siblings — for the first time. It presents the realities of 4.5 million US citizen children with at least one undocumented parent who will benefit from President Obama's DAPA executive order if the Supreme Court clears the path to its implementation.

The film lasts 44 minutes and **Luis Argueta**, the Director, will be present for a Q & A session after the screening. You can watch a trailer at www.abrazosthefilm.com

A representative from the *Henry Street Settlement Senior Companion Program* will be here to tell how it works. Come and see if this program may be something you would like to do. Join us in the MRHS Tuttle Center.

MRHS is closed on Monday, February 15 for President's Day. We wish everyone a great Holiday Weekend.

In Memoriam

MRHS lost former board members, **Jean McCardell** and **William (Bill) Ellis**, over the past two months. Jean and her partner, John Beard, were each two-term directors of the MRHS Board, as were Bill and his wife, Ann Ellis, who lives in Building I. Both Jean and Bill made valuable contributions to MRHS and to the wider Morningside Gardens community. Jean and Bill will be greatly missed by all of us at MRHS.

Sculpture Workshop

In a 6-week sculpture workshop taught by artist/instructor **Francine Perlman**, students will use plaster to build abstract sculptures, or to carve in any way, and will use Bristol board to investigate the possibilities of the cube. Materials and methods of working will be presented that can be used easily and inexpensively at home. For plaster, common household objects like egg cartons, coffee bags, and milk cartons, work well as molds, and plaster-soaked strips will be layered around forms, commonly wire mesh on a simple armature.

Students will be delighted to learn that a carrot peeler is a wonderful plaster-carving tool. Our second project will be an exploration of the great creative possibilities of Bristol, often used for architectural models, through the medium of the cube and the other four perfect polyhedrons.

Plaster is a messy material. Please wear appropriate clothing. Tools and materials will be supplied, or announced as we go along. Bring empty CLEAN milk cartons, etc, to the first class if you have some.

Mondays, March 7-April 11, 2:30-4:30 PM
Registration required — \$50 for 6 weeks

Monday Night Discussion Group

TOPIC: Let's Discuss ART!

Cave paintings, hieroglyphs, dance, story-telling, have existed as methods of communication since man began. But are these ART? Does art have a role in our daily lives — to please us, to challenge us and even to offend us? What happens to our creativity as we age and can we regain it? Let's talk about where art lives.

**Monday, February 22, 7:30 – 8:30 PM
Tuttle Center, 100 La Salle, #MC**

Hypertension Screening On Wednesdays

Blood Pressure Screening is done two times a month at the Tuttle Center MRHS. This program follows the guidelines set by the Department of the Aging of the City of New York. It is implemented by volunteers from the Gardens. A screening is not to diagnose or treat, but to recommend follow up with your physician if needed.

What are some of the reasons for a screening? What are the risk factors for hypertension?

1. Known history of hypertension
2. Family history of hypertension
3. Family history of strokes or heart attack
4. Overweight, high cholesterol, elevated blood pressure
5. Known history of Diabetes
6. To check on effects of medication
7. Before and after exercise.

We use the Omron Blood Pressure Machine which is recommended by Physicians for home use. It is good to have a blood pressure check by your doctor in his office but it is equally beneficial to have it done in other settings for they can vary from setting to setting which gives added information for your physician.

February dates for the Screening are **Feb. 3 and Feb. 17, 9:00 AM to 11:00 AM.**
